

**INTERNET
WIFI SERVICE**

High Speed Internet Service is available in the apartment with no connection costs.

The Whaler internet and WiFi service is provided by Oceanic Time Warner (OTWC) to all apartments at the Whaler. The Whaler Association of (all) Apartment Owners (Whaler AOA) is the primary contact for Oceanic (OTWC) for property wide cable problems.

The hi-speed modem is generally located near the television (or desk). Instructions are provided in the apartments for a hard wire connection or the WiFi connection. Should you experience any problems with this service, call Oceanic (OTWC) 24 hour help desk at 643-0877. This information is also included on the in-room instruction display.

The sticker on the modem provides the information needed for the WiFi login.
